SUMMARY

I am a full-stack web developer proficient in JavaScript, React, and PostgreSQL. I have 8 years of working experience, during which I've developed strong verbal and written communication skills, have learned to work with groups effectively and efficiently, and became efficient and effective at self-management.

TECHNICAL SKILLS

HTML5, CSS3, JavaScript ES6, React, Express.js, jQuery, Node.js, PostgreSQL, Webpack, Git, GitHub, Heroku, RESTful APIs, NPM

EXPERIENCE (>>[WEBSITE PORTFOLIO](#)<<)

Mobile App Developer - PollBooth - Pretty Good Inc. - [Play Store Link](#)

- Written with React Native and still under active development. I've built the app myself, wearing many hats and developing many skills in the process.

Full Stack Web Developer - Happy Wife Junk Service - [Website](#)

Sep 2019 - Present

- Created and maintain the company website, which is based in React. Consult and address any technological needs the company may have.

Thinkful - Full Stack Developer Program

Sep 2019 - June 2020

Profile: [Live Site](#) | [GitHub](#) *This is my portfolio. It has all my projects and further information about them.*

- Built using HTML5/CSS3, JavaScript, and React

Forum: [Live Site](#) | [GitHub](#) - [Client](#) | [Server](#) *This is a forum I built from scratch. It is a fully functional message board open to anyone to use. Using React made it wonderfully responsive and feel great compared to phpBB boards.*

- Built using HTML5/CSS3, JavaScript, React, Express.js, Node.js, and PostgreSQL

Census App: [Live Site](#) | [GitHub](#) *This app accesses the Census Bureau's public API to display a wide range of useful population information. Good for research or for curiosity.*

- Built using HTML5/CSS3, JavaScript, and jQuery

The Black Market: [Live Site](#) | [GitHub](#) - [Client](#) | [Server](#) *This is a fake e-commerce app made with a group of fellow classmates at Thinkful. It is a marketplace for things that are black. I was the product manager and came up with all the descriptions for the items you can "buy," so click around a little, won't you?*

- Built using HTML5/CSS3, Javascript, React, Express.js, Node.js, and postgresQL

American Kidney Fund - Truck Attendant

Aug 2017 - Present

- Coordinate, organize, and sort anywhere from 10-100 pounds of donations received by the public. Communicate and provide excellent customer service for people dropping off donations.

MGI - Quality Control Technician

Jun 2015 - Nov 2015

- Gather and inspect products off the production line - ensure all products meet or exceed customer requirements by utilizing precise measurements and verifying products are up to customer's standards.

PestBan - Pest Technician

Nov 2013 - Oct 2014

- Travel unsupervised to customer's homes in company vehicle and provide personalized services involving insect and pest eradication and prevention. Independently manage appointments and develop positive reputation with customers.

Google - Operations Technician Assistant

Sep 2012 - Nov 2012

- Two month contract with Google through Adecco. Work experience included maintenance and expansion of Google's internet hardware data centers, repairing and upgrading hard drives, RAM, and other components.

EDUCATION

Thinkful/Bloc - Full Stack Developer Program

Sept 2019 - Jun 2020

Learned industry best practices and practical software development standards with a focus on HTML5, CSS3, JavaScript, jQuery, Node.js, React, and algorithms & data structures.

Kennesaw State University

Aug 2007 - May 2010

Computer Science (1 year of coursework related to HTML, CSS, JavaScript)
